Batman and Robin explain the rules

A less experienced player (ROBIN) will be paired with a greater experienced player (BATMAN). The 'Robins' will play against a 'Robin' from another pair until one player reaches 11 points (e.g. 11-8). They then leave the court and the 'Batmen' of their teams will then play each other starting with the points that their partner won earlier. The winner of the match will be the first team to 21. The teams will be paired so each pair has an equal chance of winning. Players will get lots of matches.
